Vol. 15, No. 2, July, 2006

Tailgate Auction Tuesday at 7:00pm

June Meeting Notes

Dave Snellman – reporting

Mike Koste, our VP, filled in for President Abramson who was on duty at the “ball yard.” We had a re-cap of our recent meet at Kutztown. A verbal report of the auction results was given. (See last month’s Oscillator for details.) We thanked everyone who assisted with making the meet the most successful one yet. We’re starting to look for the next raffle radio. We’ll need it for September. As Al Klase’s crystal radio presentation was a real hit, we hope we can have a similar one for September.

We heard of an item that probably holds a record for a sale at Kutztown. A McMurdo Silver radio was sold by one of the vendors for the princely sum of \$5200!

Mike Koste heard from Dan Collins from Arizona. Dan is planning to attend the September meet and had volunteered to assist at the club table.

Speaking of the September meet, we’ve had a few suggestions on improving things. Mike Lobus suggested a contest to see who can e the farthest to the meet, who might want to admit to being the oldest, and who is the youngest. This could be fun to build upon.

Another suggestion was additional porta-potties at both ends of the pavilion. We are in touch with the

The Oscillator is published monthly by members of the non-profit DVHRC. Its purpose is to provide information on electronic, radio vacuum tube and communications with collectors and producers of vintage radio technology. We welcome and solicit information relating to radio history or collecting. Submissions should be well researched, typed and accompanied with clear photographs or drawings. Material to date should be in Word and pdf formats.

Unless copyrighted by the author, content in this publication is available for authorized reproduction for non-profit use.

Personal views, opinions and technical advice offered in this newsletter do not necessarily reflect those of its members, officers or Board of Directors of the DVHRC, and the organization is responsible for any buying or selling transactions involved.

To join DVHRC dues are \$20 per year. The membership year runs January - December. Please mail to the club P.O. box above. Meetings are held the second Tuesday of the month at 7:30 pm in the Telford Community Building, Telford, PA.

(deadline is the 20th of each month)

Material submitted is subject to acceptance and editing by the editor. A full page article is approximately 400 words. Printed photos may be submitted for a covering. PDF files should be under 1MB.

Renninger's folks on this. As for other services we are looking for a new food vendor. We have essentially fired Jack, our caterer. He was just not performing to our expectations. Look forward to better food service in September.

We heard of a yard sale in New Jersey. Clay Cydel passed away and his sister was planning a yard sale of his collection.

NO technical presentation this time. The program was the ever popular "show and tell." Dan Schwartzman showed off a Clinton model 9K 5-tube radio for the late 1930's. Mike Koste had a Globe model 553 radio to share with the group. Ray Chase displayed a "Zahl" tube. Used in the TPS-2 radar system, this tube was designed by Dr. Harold Zahl at Camp Evans, NJ.

A short auction followed our meeting.

The July meeting is our annual tailgate meeting in the parking lot adjacent to the meeting hall. Please note we will begin at 7:00 PM in order to take advantage of the daylight. No commissions will be charged. We look forward to seeing you there.

"EVEREADY" Radio Batteries

eavesdrop on

JIMMY DURANTE and VICTOR MOORE

Listen to the Jimmy Durante Show, Wednesdays, N.E.C.

'Tsk! Tsk! Burying a poor, innocent radio!'

DURANTE: Whatta catastrophe! My portable ups and dies just when my favorite commoishal is coming on!

MOORE: Say, young feller—you with the nose—I don't want to be nosy but—

DURANTE: Gadenoiks and egads! He don't wanna be nosy, he sez! Dis is no time for comedy, Mr. Moore.

MOORE: Oh, dear, nobody ever wants to listen to me!

DURANTE: I'm a man of understanding and pulchritude. Speak up, Mr. Moore. I'm hangin' on your every word.

MOORE: Have you ever heard of "Eveready" radio batteries?

DURANTE: Have I ever hold up "Eveready" radio batteries, he asks!

MOORE: They outlast all other brands? If you put "Eveready" batteries in your portable, it wouldn't die so quick. "Eveready" batteries are more economical. And, besides, they save you money.

DURANTE: Money? The root of all evil! I loves it! Get me some of dem batt'ries!

FOR PORTABLE RADIOS—No. 467

***THIS "EVEREADY" RADIO BATTERY OUTLASTS ALL OTHER "B" BATTERIES OF EQUAL SIZE**

Yes, "Eveready" radio "B" batteries last longer because of their special flat-cell construction... all power, no dead space.

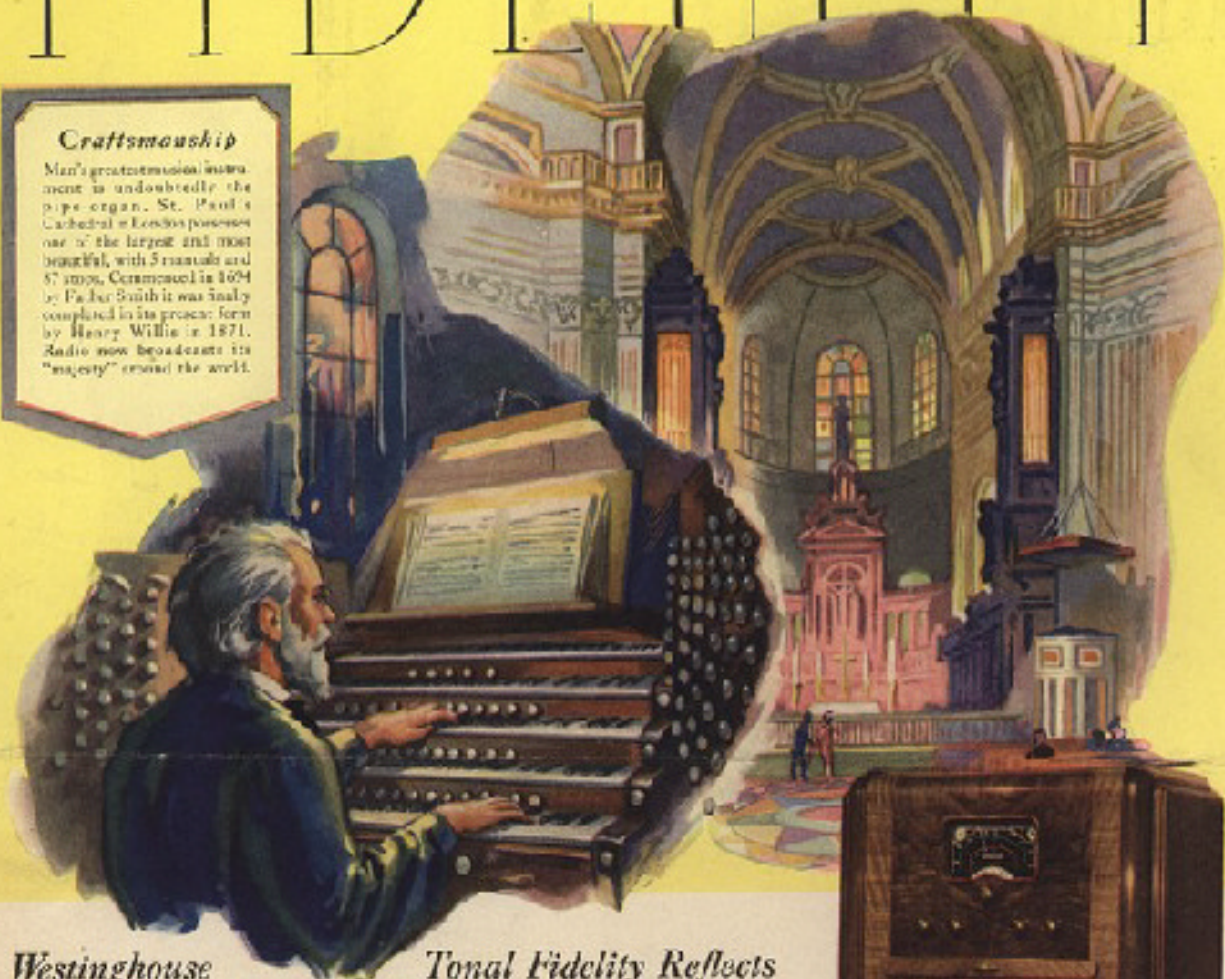

Registered trade marks "Eveready" and "Mini-Max" distinguish products of NATIONAL CARBON COMPANY, INC. 30 East 12th Street, New York 11, N. Y. Unit of Union Carbide and Carbon Corporation

FIDELITY

Craftsmanship

Man's greatest musical instrument is undoubtedly the pipe organ. St. Paul's Cathedral in London possesses one of the largest and most beautiful, with 5 manuals and 57 stops. Commenced in 1694 by Father Smith it was finally completed in its present form by Henry Willis in 1871. Radio now broadcasts its "majesty" around the world.

Westinghouse Tonal Fidelity Reflects the Living Image of Each Broadcast Note

Behind the reverent, impressive tones of the great organ lie the study and talent of the organist, the ingenuity and skill of designers and craftsmen.

So, behind the faithful reproduction of each vibrant note now captured in thrilling realism by the new Westinghouse Radio . . . lie the planning of brilliant engineers; the meticulous ease and precision of skilled Canadian craftsmen.

True, you will find, in the new Westinghouse Radio, every advanced feature known to modern radio science . . . Automatic Tuning; Cathode-Ray Tuning Eye; Orthoacoustic Tone Chamber; "Atlas of the Air" Spare Wave Dial; High Fidelity

Tone; Carveless Speaker; and Remote Control anywhere in the room.

But you will find something more — craftsmanship and engineering genius which alone can impart life and realism to radio performance . . . and a richer measure of radio enjoyment than you have ever experienced before.

The New Westinghouse Receivers, precision-built and of highest quality cost no more than the ordinary mass-production radio. 21 models to choose from, A.C. and Battery-operated types, with prices as low as \$39.90. Convenient terms and allowance for your old set.
