

Vol. 2 No. 9, October 1994

Editor: Ludwell Sibley

### PRESIDENT'S CORNER

Jay Daveler

Another well attended meeting in September again shows the growing enthusiasm for the club. Just looking at the auction table with all the various pieces up for auction makes one wonder where all these magnificent radios come from!

I have spoken to our attorney Charles Markofski, who has informed me that the incorporation papers are well under way. But let's keep in mind that this will take some time.

Don't forget the upcoming swapmeet. Let's all keep the date open and bring out a favorite radio for the show to be held in conjunction with the flea market. It would be a good idea to let the Show chairman know at the next meeting what you will be bringing. This will let him plan ahead. Anyone who can help on the club project (restoration of a radio to be auctioned off at the swapmeet) please contact Charles Class.

Thanks to Ludwell, we're getting an early peek at auction results from AWA/Rochester - *you saw it here first*. I'm looking forward to seeing everyone at our October meeting.

### SEPTEMBER AUCTION REVIEW

Mike Koste

The membership should be praised for contributing a wide variety of 'quality' items to the Sept. 13 equipment auction. Three tables were packed with 87 lots, with something for practically every collecting interest. Although some offerings did not meet their reserves, over half the inventory changed hands. It's safe to assume that, with Rochester over, we'll see more of the same at the Oct. 11 meeting.

Along with a number of fairly common '50s and '60s table radios, miscellaneous parts and box lots of tubes, big-ticket items of the night included a very desirable Tarleton transistor with detachable antenna, a white Crosley D25E clock-radio in fine condition, a pair of interesting home-built three-dialers, an unusual Mitchell 1402 table radio, a super-clean '53 Silvertone 2016 in ivory plastic with criss-cross grille, a pair of Sinclair gas-pump transistors (probably the most desirable of the gas pumps since Sinclair isn't around anymore), a very desirable Crosley 11-116U (despite a corner chip and lack of knobs), and a pristine Spica ST-600 in bright blue.

The DVHRC treasury benefits from all auction sales, charging a 10% commission on items up to \$50 and a flat \$5 for sales over \$50.

### FALL SWAPMEET PROGRESS REPORT

Mike Koste

The antique-radio community of the East Coast will be out in force on Sunday, November 13, when the DVHRC Swapmeet returns to Tyro Grange Hall in Buckingham. For what's billed as the final area event of its kind in 1994, we need 100% club participation to guarantee a successful and profitable meet. Here's how you can help:

1. **COME TO SELL . . .** It's a sure bet that the tailgate area will sell-out in advance. We also have two floors and unlimited table space inside. Fill out the vendor registration form in this month's *Oscillator*. Mail it in or bring it to the October 11 meeting.

2. **CONTRIBUTE . . .** to the second "Our Favorite Radios" exhibit and contest. Commemorative plaques donated by Jay Daveler, Arn-

#### NEXT MEETING

Tuesday, Oct. 11, 7:30 PM, at North Penn Amusements, 113 Main St. (AKA Rte. 113), Souderton.

#### JOINING UP

To join DVHRC: just send \$5 to DVHRC, Box 624, Lansdale, PA 19446.

#### ADS & SUCH

For ads, articles, etc.: please send to Ludwell Sibley, 44 E. Main St., Flemington, NJ 08822-1224, (908) 782-4894.

old Finkel, Pete Grave, and Tony Moletierre will be awarded to the sets receiving the most votes. Bill Overbeck and Dave Abramson are in charge and welcome your input.

3. **SPEND SOME SPARE TIME** . . . assisting in the repair and renovation of a late-'30s American Bosch table radio that we'll be raffling off. Contact Jay Daveler, Charlie Class, or Tony Moletierre if you're willing to help out. Raffle tickets are \$1 apiece or 6 for \$5.

4. **VOLUNTEER** . . . to spend some time assisting Larry Hilgner with traffic control. If you're not attending the meet as a vendor and can spend an hour or so collecting parking donations and passing out ballots for the equipment contest, you'll be doing your part as a valuable citizen.

5. **DONATE** . . . a 25-word ad to *Antique Radio Classified* to help promote the meet. Again, if you aren't there to sell or can't attend at all, a \$5 bill for the good of the club isn't that much, is it? (Ad deadline for the November A. R. C. is Oct. 10 . . . just copy the important points from the display ad in this month's *Oscillator*.)

DVHRC swapmeets have become highly anticipated events, and Nov. 13 should be no different. Make plans now to join us!

#### ON THE HORIZON

Oct. 22	<b>HARPS Show</b> , Holiday Inn, Middletown, NY Contacts: John or Linda Gramm, (914) 427-2602
Oct. 23	<b>Sellersville Hamfest</b> , indoor-outdoor, at National Guard Armory on Rte. 152. Contact: Linda Erdman, (215) 679-5764.
Nov. 5	<b>NJARC Catalog Auction &amp; Swapmeet</b> , Hightstown "Country Club," Hightstown Contacts: Marv Beeferman, (609) 693-9430 or Ludwell Sibley, (908) 782-4894. Auction catalog now available.
Nov. 13	<b>DVHRC Swapmeet</b> , Tyro Grange Hall, PA 413 & US 202, Buckingham Contact: Mike Koste, (215) 646-6488

#### WANT ADS

**Wanted:** 15GP22 color picture tube for RCA CT-100. Dave Abramson, (610) 827-9757.

**For sale:** Aeriola Senior receiver, model 319564, exc. cond., made by Westinghouse for RCA, less tube, \$185 or best offer. Leave message at (717) 776-3248. Holbert Myers, near Carlisle, PA.

#### NEW CLUB IN PA

Two active radio collectors in the Williamsport area are forming a group to fill the "club gap" in the middle of Pennsylvania. Their goal is to host at least two swapmeets per year. Information on the Central PA Radio Collectors Club is available from Frank Hagenbuch, 1440 Lafayette Parkway, Williamsport 17701, (717) 326-0932; or Mike Heffner, 501 S. Market St., Muncy 17756, (717) 323-3647.

#### AUCTION AT CHAMBERSBURG, OCT. 15

The following are highlights of material catalogued for auction at Chambersburg, PA on Saturday, Oct. 15. (Gateway Gallery, 643 Kriner Rd, 0.5 mi from Exit 5 of I-81), [717] 263-5076.) This is a huge auction, with 521 lots from the collection of Jack Hortman. Model numbers listed are fairly accurate (but there are typos in the catalog). Many of the radios are said to be recapped and/or working.

▪ Tube Radios: American Bosch 38, 48, 670C, 505; Atwater Kent 20, 52; Crosley 02CA, 601 Bandbox, others; Freshman Masterpiece (less cabinet), 525; Gonset Citizens Communicator; Grebe MU-1; Hallicrafters S-38, S-40, S-40A, SX-42, EC-1, TW-1000; National NC-173; Philco 71, 90, 95, 116-121, 235, 240, 431, 514, 610, 620, 925, 1282, 38-12, 42(?) -350, 42(?) -432, Transitone 540; RCA Radiola IIIA (parts set), 17, 18; RCA Victor 19K (2), 2BX63, 360, 56X3, 64F3, 77U, 80B, 111K, 8X561, 97K, 9X561, K-80, R-1-4, R-35, X-71; Zenith 86, 620, 2614, 6D539, 6G001YX, 6R087, 7C05, 7G01, 7H02, 7H022, 7H820, 7S633, 7T24, 10S464, 10S669, 12H689, C24P, G725 (2), G730, H72322, H725 (3), J5044, K725, K731, L7221; Zenith Transoceanic G500 (3), H500 (2), 6A40, 8G00545 (3). ▪ Transistor Radios: GE P-672, P-673, P-777A; RCA Victor 4RH11; Zenith Royal 710 and Royal 820. Speakers: AK E, AK L, WE 540AW (?), RCA 100A (2). ▪ Literature: Rider's - full-house set (Vols. 1-23!) with indexes; Rider's 1931 (pre - Vol I); Photofacts, 1-1100 (with gaps) and four filing cabinets for same; '30s magazines - numerous but not in long "runs"; Radio Listener's Guide & Call Book - 12 or more issues; books - numerous classic items, mostly '20s-50s, including some British; catalogs - numerous, '20s-50s; service data and tube-substitution books; ARRL Handbooks; QST - scattered issues, '30s and later; misc. paper. ▪ Test Equipment: heavy on TV gear but there are four or more tube testers, a couple of frequency counters, scopes, etc. ▪ Tubes: the material appears light on tubes but there are a few 01As, etc. ▪ Other: auto radios - half a dozen.

Lest anyone think he'll be the sole bidder on that Rider's set, etc. - the seller is a member of the Mid-Atlantic club and this auction has been announced at a recent MAARC meeting. Still, there's enough material to entertain a whole group of buyers.

## MEET REPORT: AWA - ROCHESTER

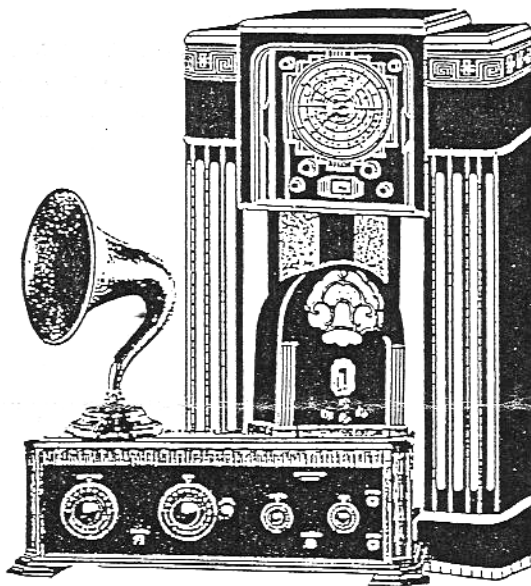

September's annual Antique Wireless Association event at Rochester is in the "golden glow" phase. Numerous DVHRC luminaries attended. *At minimum*, they were: Jim Amici, Pete & Jan Grave, John Kern, Frank Maggiore, Bob Masterson, Lewis Newhard, John Okolowicz, Bill Overbeck, Terry Skelton, Ludwell Sibley, John Terrey, and Bill Wade. Flea-market weather was glorious on Wednesday and Thursday, wet the next two days. Although this event is not a heavy-hitter for transistor collectors, Bill Overbeck reported capture of a Toshiba TH666, Toshiba 7TP31 (new-in-box), and a Zenith Interoceanic. This year's special theme in the talks and Equipment Contest was dual: the 150th anniversary of the telegraph, and World War II radio. In the Equipment Contest, Lloyd Jury of Lancaster "stopped the show" with a massive display of historic radar tubes and other components. Copies of the handout from the Sibley talk on collecting/restoring WW II military equipment are available from your friendly editor.

John Okolowicz received AWA's Taylor Award for television history, a result of his excellent article on Philco TV designs in May's *Old Timer's Bulletin*. Our "neighbor" Ed Lyon of MAARC got the AWA Houck Award for Documentation, based on his series of historical articles in the MAARC newsletter.

The auctions this year had lots of high-quality material; total sales were about \$55,000, which is about last year's total but without the two estates that swelled the 1993 gear. "Biggest deals" were: a spherical Audion, *filament condition unstated*, \$900; a rotating Geissler-tube display, \$1550; a (British) single-needle telegraph set, \$1550; two fine RCA 77DX mikes, \$1050 and \$1300 respectively; a Radio Glow leaded-glass table set, \$2300; a (Swedish) Ericsson Morse telegraph ink recorder, \$2300; and a small De Forest Interpanel set, \$1300. It appears that British and European attenders are answering the big U. S. demand for foreign equipment by bringing some along - there were numerous crystal sets, a Luftwaffe receiver and a Wehrmacht direction finder, several foreign tubes, etc.

Highlights of the auctions are listed beginning on the next page. They are given here because AWA provides individual auctions for specific classes of material - particularly communications equipment, literature, and tubes - and seems to auction more key-and-telegraph gear than any other event. Thus Rochester results are unusually significant for collectors in these areas. - LAS

## Delaware Valley Historic Radio Club ANTIQUe RADIO SWAPMEET

Sunday, Nov. 13, 8 AM - 1 PM  
Tyro Grange Hall  
Rtes. 413 & 202, Buckingham, PA  
For information, call (215) 646-6488.

### DVHRC SWAPMEET VENDOR REGISTRATION

10' x 20' Tailgate Space:    ( ) \$5, DVHRC Member    )  
(Bring your own table)    ( ) \$7, Non-member        ) *Tailgate spaces will be \$10 on the day of the event.*  
Indoor Table:                ( ) DVHRC Member        )  
                                      ( ) \$12 Non-Member       ) *Indoor tables will be \$15 on the day of the event.*

IN THE EVENT OF RAIN, TAILGATERS MAY MOVE INSIDE AND USE AVAILABLE TABLES AT NO EXTRA CHARGE.

Name \_\_\_\_\_  
Address \_\_\_\_\_  
\_\_\_\_\_  
Phone \_\_\_\_\_

Make checks payable to the Delaware Valley Historic Radio Club. Detach and mail with payment to: DVHRC, PO Box 624, Lansdale, PA 19446.

# AUCTION HIGHLIGHTS - AWA, ROCHESTER, 1994

Ludwell Sibley

Brief observations: ▪ Many items in both auctions this year carried unrealistically high reserve prices which slowed the sale and resulted in passing of items that would likely have sold near the reserve amount. ▪ Many lower-valued lots have been omitted from this listing to save space. This necessarily pushes up the price of the average reported lot. ▪ Walter Buffinton did an outstanding job of moving the main (Friday) auctions along. ▪ I'm under the impression that there was a deceased member's estate in this material. ▪ Abbreviations used here: bklt - bakelite; BBT - brass base w/ tip; G - good; HB - homebuilt; NIB - new in box; NT - no tubes; VG - very good; W - Westinghouse.
